

With Baxter OPAT, you have **the freedom to do more**

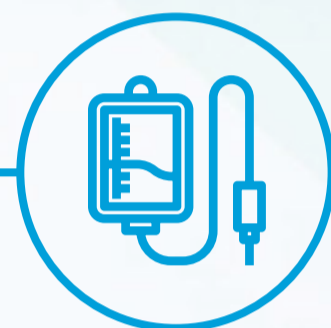

The Baxter OPAT portfolio gives hospitals and HCPs the tools they need to use resources efficiently, reduce costs and give patients a smooth OPAT journey

Simple S-OPAT for IV antimicrobial therapy

Push the boundaries of self-care, and meet the needs of HCPs and patients with a range of devices and services

Supported by independently verified stability data

Easy-to-use and portable elastomeric pumps

Comprehensive training for HCPs, patients and carers

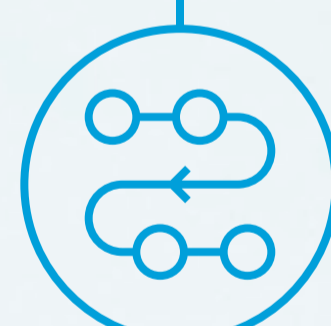

Business case support

Demonstrate the potential savings that OPAT provides using the Baxter Cost Calculator and published evidence of S-OPAT

Digital patient identification

Harness the power of OPATNet to discover patients who are suitable for S-OPAT

Pathway mapping and redesign

Receive support mapping your patient pathway and address barriers with service redesign, in order to move your patients to S-OPAT at home

Explore the full Baxter OPAT portfolio to **push the boundaries of self-care**
